Subject: RE: Columbia Falls Site Name

Hi, Rob.

I definitely think an alias is in order. I like "Columbia Falls Aluminum Reduction Plant" since it seems most current and understandable to the general public.

Cynthia

Subject: Columbia Falls Site Name

Hi Mike and Cynthia,

I want to get your thoughts on best steps forward regarding the site name, since the current site name is not very clear. Currently the Columbia Falls site name is "Anaconda Aluminum Co Col Fls Red Plt," which was coined in the late 80s. We've already put in for "Anaconda Aluminum Co Columbia Falls Reduction Plant" to be an alias when we started the HRS process.

Do you think it would be beneficial to add another alias to help with communicating the site name? I've referred to the site as "Columbia Falls Aluminum Reduction Plant."

If we want to add another alias, we should do so soon so we can refer to the site as the SEMS site name followed by an "also known as ..." in the upcoming outreach documents that we'll be developing as EPA proposes the site.

If anyone has any concerns about this, please let me know soon.

Thanks,
Rob
